FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 1	Preparedness Level 4	Preparedness Level 3
	Multi-Agency Coordination System MACS Mode: 3	Multi-Agency Coordination System MACS Mode: 3

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Cal OES EMAC Missions

- **2018-SOC-53295:** California requested 100 Engines for 20 Strike Teams or Task Forces (Preferably Type 1 or 3) and sent a private blast to 9 States in the following FEMA Regions: XI, XIII, IX, X. The resources from the following states are currently in California: Idaho, Montana, New Mexico, Oregon, Texas, Utah, and Washington. A continual assessment of resource needs is on-going. If conditions change or resources needs are not met, California will send additional private broadcasts to additional EMAC States.
 - Oregon - 85 engines (assigned to Camp Fire)
 - Washington - 25 engines (demobed – in travel status)
 - 10 engines (reassigned to CA-CNR-000045 AEU (Amador-El Dorado Unit) staging)
 - 10 engines (reassigned to CA-CNR-000045 NEU (Nevada-Yuba-Placer Unit) staging)
 - Utah – 15 engines (assigned to Woolsey)
 - 11 engines (demobed – in travel status)
 - New Mexico - 7 engines (assigned to Woolsey)
 - Idaho - 6 engines (assigned to Woolsey)
 - Montana – 10 engines (assigned to Woolsey)
 - 10 engines (demobed – in travel status)
 - Texas - 55 engines (assigned to Woolsey)
- **2018-SOC-55028:** 1 Mass Care Coordinator from Oregon to support Mass Care and Shelter Operations.
- **2018-SOC-54101:** New York National Guard is providing 7 personnel and equipment to conduct aerial damage assessment in Butte County.
- **2018-SOC-53946:** A forensic team of 4 people, from Nevada, is on-scene providing support to Butte County.
- **2018-SOC-54345:** California requested Individual Assistances Subject Matter Experts to provide assistance in Northern and Southern California.
- Currently, California is seeking Public Assistance Resource Coordinators to assist survivors in Northern and Southern California.

Remote/Community Isolations

Paradise Pines Community Isolation, Unincorporated county area Butte County [\(Final\)](#)

On 11/14/18 as of 1558 hours, CA 911 Branch reported customers served out of the Paradise Pines Central Office are unable to make 911 calls due to a network event.

- 3,299 landlines were impacted.
- No impact to Wireless 911 calls.

On 11/17/18 at 1125 hours, CA 9-1-1 Branch advised service was restored to the Paradise Pines Central Office at 0356 hours, 11/17/18.

- Total Outage Time: 8 Days and 15 hours and 16 minutes
- Jurisdiction Affected: Paradise Pines (Butte County)

WEATHER OF CONCERN

Northern California

- Red Flag Warning for portions of Interior Northern California today.
 - Locally gusty northeasterly wind continues over portions of the eastern foothills, Western Plumas mountains, and west slopes of the Northern Sierra Nevada today.
 - Combined with low humidity and dry fuels, this will produce critical fire weather conditions.
 - Wind decreases later today. Wet weather develops around the middle of next week.
- The San Joaquin Valley Air Pollution Control District will keep the Air Quality Alert in effect due to smoke impacts from surrounding wildfires for San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tulare, and valley portion of Kern counties.
 - This Air Quality Alert is in effect until the fires area extinguished.

Southern California

- Warm and dry today and again on Monday light offshore winds and low afternoon humidity.
 - The strongest easterly winds will be in the mountains passes and foothills from 15 to 25 mph.
 - Fire weather concerns will be elevated in these areas.
 - Gradual cooling Tuesday through Thursday as a Pacific trough moves inland bringing increasing humidity.
 - This system will also bring a chance for light rain Wednesday night and Thursday.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

Key Points

11/18/18 - 11/24/18

Sunday

- Widespread poor air quality due to smoke
- Critical fire weather conditions for the northern Sierra foothills from 1000-3000 feet through mid afternoon. Areas of northeast to east winds up to 15 mph with gusts to 30 mph. Local gusts up to 40 mph over ridges and through favorably oriented canyons, especially the Feather River drainage including the Camp Fire. Winds will gradually decrease by the afternoon.
- Offshore wind gusts up to 25 mph may cause elevated fire weather concerns late Sunday night over portions of southern CA
- Dry conditions continue statewide

Monday

- Offshore wind gusts up to 25 mph may cause elevated fire weather concerns into Monday morning over portions of southern CA
- Widespread poor air quality due to smoke
- Dry conditions continue statewide

Tuesday

- Widespread poor air quality due to smoke
- Dry conditions continue statewide

Key Points

11/18/18 - 11/24/18

Wednesday-Saturday

- Periods of rain and mountain snow mainly across central and northern CA. Southern CA may see localized heavy precipitation but confidence is lower there.
- Snow levels will be around 5500-6500 feet across central and northern CA and 6000-7000 feet across southern CA
- Some rain may be heavy at times and may cause debris flow concerns over recent burn scars. Exact amounts and specific locations for the heaviest rain uncertain at this time.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

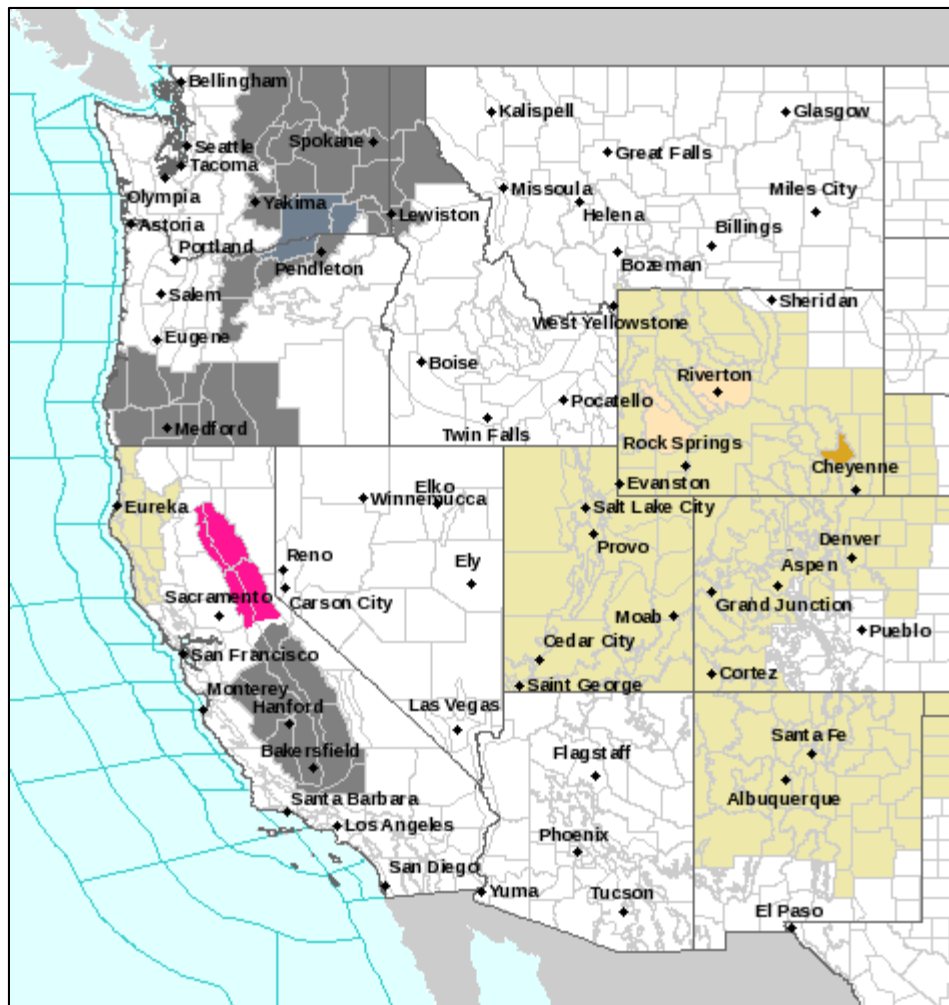

- High Risk Western Cascade-Sierra Slopes/Drainages Today for Gusty NE Winds and Low Relative Humidity (RH)
- Very dry conditions continue through Tuesday with a sudden change to relatively moist conditions Wednesday through Thanksgiving weekend.
- Warm, dry conditions will continue through Tuesday.
- Gusty N to E wind from the western Cascade-Sierra slopes to the coast will peak early today with local gusts mostly 20-35 mph and accompanying RH's of 20-35% this morning. More N to E winds will return in those areas tonight but with much lighter speeds.
- Afternoon min RH's will remain fairly low (12-18%) through Tuesday then likely be over 50% or higher by Wednesday afternoon most locations and remaining that way in all locations Thanksgiving Day into next week.
- Afternoon high temperatures still 5-10 degrees above normal until Wednesday when they cool will be right around normal through early next week at least.
- Onshore flow, deeper marine layer and higher RH developing late Tuesday, with widespread rain and high elevation (5500 ft +) snow beginning Wednesday as a series of wet weather systems moves through the region into early next week.
- Gusty southerly winds expected to develop Tuesday afternoon and overnight ahead of the incoming weather system/precipitation could be accompanied by some low RH in favored areas, especially the Shasta Valley.

SOUTHERN CALIFORNIA

- Like yesterday morning, low level offshore drainage winds returned again this morning and kept widespread low clouds and fog from forming in the coastal zones.
- Mid and high clouds from over the Pacific continued drifting across the region this morning.
- High pressure aloft and weak to moderate offshore flow will keep us dry through Monday.
- There will be little in the way of low clouds, but plenty of mid and high clouds.
- On Tuesday a weak trough will bring minor cooling and a better chance for coastal low clouds and fog.
